ABOUT ME

Dedicated and Aspiring Frontend Developer with a profound passion for web development and a strong foundation in HTML, CSS, REACT and JavaScript. Eager to launch a career in web development, I am committed to leveraging my technical skills and enthusiasm to craft exceptional user experiences. I thrive on staying updated with the latest web development trends and technologies, ensuring that my work remains innovative and user-centric.

PROJECTS

PERSONAL PORTFOLIO WEBSITE:

- Crafted a responsive portfolio website with HTML, CSS, and React.
- Applied modern design principles to highlight skills and showcase projects.
- Leveraged React features, including hooks, props, conditional rendering, useContext, custom hooks, and more.

React-Redux Toolkit E-Commerce Project:

- Developed an e-commerce website using React-Redux and Redux Toolkit.
- Improved user experience with efficient state management.
- Implemented responsive design and dynamic filtering.
- Collaborated with a cross-functional team.
- Boosted sales and user satisfaction.

To-Do List Web App:

- Created a user-friendly To-Do List web application with HTML, CSS, and Vanilla JavaScript.
- Implemented essential features for adding, editing, and deleting tasks.
- Designed an intuitive and easy-to-use interface.

Templates Project:

- Created versatile web templates utilizing Flexbox, Grid, and advanced HTML, CSS, and JavaScript features.

Additional Projects:

- Developed various applications, including a Quiz App, Hangman Game, Memory Game, Slider, and Fetch API integration.
